

## The Bible Weekly Dispatch

April 29, 2019

Volume 4, Issue 31

### **Dear Parents,**

Can you believe we are end of the April and entering into our last week of school?!?!?! I sure can't believe it! Our school year is rapidly drawing to a close. I am a bit sad because I have really enjoyed my time with this group of kids. However, I am so proud of all they have accomplished this year.

This week, students will be continuing their unit on Force and Motion. We are going to attempt to make a compass this week, go on a scavenger hunt to find simple machines around our school and more. The end project for this unit will be for the students to create a recycling project that includes simple machines. I will send out more information soon, but for now I am asking parents to start collecting materials from your recycling bin. The project will be completed in school (this is different than in the past). Bottles, cardboard, egg cartons, etc....anything will be acceptable at this point. Anything we don't use will be discarded into our recycling bin at school. More information to come!

Our Schoolwide Wacky Walk is this Friday, May 10th. The youngest member of the families brought home their Wacky Walk Fundraising Envelopes this week! Envelopes need to be returned my Monday, May 6th.

Students will take their final Star Math and Star Reading Tests in the next few weeks. I love to see the progress these students have made over the course of the year. I have May 15 and May 16 scheduled for Star Testing.

Finally, our last field trip to Ernie Miller is on Monday. I hope you all had a chance to read my email regarding dress code. This is an all day field trip. If it is postponed, the next dates we are looking to make it up is either May 10, or May 17th. THANK YOU and have a great week! -Carolyn Bible
